Women Build 2011

We couldn't have spent a Saturday in April any other way! More than 35 women came out to the Carefree Lowe's and learned new construction and home improvement skills. They learned how to install tile and ceiling fans, faux painting basics and even how to use the nail gun and other power tools. What an empowering day! Women Build is an annual event held in the Desert Foothills area as part of the nationally recognized Women Build Week. Learn more about how you can get involved locally, contact Colleen Pyra, cpyra@habitatdf.org or 602-318-3111. Special thanks to [Lowe's](#), [DeWALT](#), High Desert Tile, CSI Construction (623-810-1597) and [Valspar](#) for making this event happen!

Construction Update!

Even as the summer months come blazing in, we're still out on the construction site building more houses for local families in need. Through the amazing support of volunteers, one house is almost complete and the next is getting started soon. Thanks to the generous support of the [HelmsBriscoe Foundation](#) and [Thrivent Financial for Lutherans](#) for

sponsoring these houses and giving two more local families a safe place to call home.
